

Air Intake System

System Troubleshooting Guide

NOTE: Across each row in the chart, the sub systems that could be sources of a symptom are ranked in the order they should be inspected starting with ①. Find the symptom in the left column, read across to the most likely source, then refer to the page listed at the top of that column. If inspection shows the system is OK, try the next system ②, etc.

SUB SYSTEM	THROTTLE CABLE	THROTTLE BODY	BYPASS CONTROL SYSTEM
PAGE			
SYMPTOM	—	—	174
WHEN WARM RPM TOO HIGH	②	①	
LOSS OF POWER		①	②
